	Lead screw for flameproof switchboards type ROK-6 ...	

Application:

The **lead screw** is used to close the chambers of ROK ... type distribution fields, manufactured by "Zakłady Wytwórcze Aparatury Wysokiego Napięcia" ZWAR in Warsaw.

Construction

1. The lead screw is made of a stainless steel rod, in the form of a trapezoidal three-way thread.
2. The cube of the lead screw mounting bracket is made of a block of quality steel.
3. The coupling nut of the screw is designed as a sleeve with an internal three-way thread.

Execution types

1. Lead screw with cube without mounting bracket
2. A lead screw with an ankle and a mounting bracket
