## Autonomous Flameproof Type Plug Socket dKAW-400A

The plug socket type dKAW-400A is built on the battery boxes of the SBS-4, SBS-4W type and is intended for connecting accumulator batteries with the ELA-44 and / or Lea BM-12 locomotives powered by them and with rectifiers. These sockets are of a flameproof design, made in three versions: "A +", "B +" and "B-".

### Certificate:

Plug-in sockets type **dKAW-400A** have the EU-type examination certificate: **KDB 06ATEX317 / 1** of **05.08.2011**. issued by the Central Mining Institute, the Certification Body of the Experimental Mine "Barbara" as a supplement to the EC-type examination certificate **KDB 06ATEX317** of **December 28, 2006**, and meets the requirements of the following standards:

- PN-EN 60079-0:2013 (EN 60079-0:2012)
- PN-EN 60079-1:2014 (EN 60079-1:2014)

The plug-in sockets of the dKAW-400A type are marked with:

**KDB 06ATEX317**  
**I M2 Ex d I Mb**  
**1461**
