		<p><b>Cover for the fastening screws of the transformer station</b></p>

**The cover of the fastening screws of the transformer station** is used in flameproof transformer stations in order to protect the fastening screws of DN chambers or DN and GN chambers against mechanical damage.

We make covers for fastening screws both for stations with a capacity of 315 kVA, 400 kVA and for stations with a capacity of 500 kVA, 630 kVA, and on request for other stations.
