---	---	---

The hexagonal universal wrench is made as a welded structure. The caps were made of a rod of the appropriate diameter and then forged to the appropriate size. The handle is made of bent 3mm thick St3S steel.

The universal hexagonal wrench is protected against corrosion by coating them with antistatic paint (hammer gray color)

The universal hexagonal wrench is made in the following dimensions: 10, 13, 17, 20, 24.

	<p>where A - 24 mm (screw M16), - 20 mm (screw M12), - 17 mm (screw M10), - 13 mm (screw M8), - 10 mm (screw M6),</p>
---	--

The universal hexagonal key has a permanent manufacturer's mark and a permanent size marking.
