	Plug-in traction unit type TZWO-4	

Plug-in traction unit type TZWO-4

The TZWO-4 type traction plug assembly is built on the SBS-5, SBS-5A type flameproof battery boxes and is designed to connect the battery with a powered battery locomotive type Ldag-05 or with a charger for charging the battery.

The TZWO-4 type traction plug assembly is of a flameproof design and enables connection with a locomotive or a rectifier with the use of 4 pcs of special flameproof plugs. The plugs are not supplied with the plug assembly as they are part of the locomotive or charger equipment, not the battery pack.

Technical data:

Rated voltage : $U_n = 110V$ DC

Rated current : $I_n = 100$ A

Compliance with standards:

PN-83/E-08110

PN-83/E-08115

PN-83/E-08116

Feature of admission : BM 1510/78

Attention

The traction plug-in unit type TZWO-4 may be used only as a **spare part** for the overhauled and repaired accumulator batteries type SBS-5, SBS-5A
