## INDEX CARD

**Complete lock of the KSO coupler  
or the dKAW-400A socket with the  
SBS-4 battery holder**

The lock of the KSO coupler or the dKAW-400A socket together with the handle serves as a plug lock against self-pulling out of the KSO coupler or the dKAW-400A socket in the SBS-4 battery. The locking mechanism is installed in the lower part of the KSO coupler body or the dKAW-400A socket.
